Latitude	39.97569	Longitude	-79.92387
County	Fayette	Municipality	Luzerne Township
Inspection Code	RTNC - Routine/Complete Inspection	Facility	
Permits / Auth	Well Permit	Site Phase	Drill/Alt
Well Info	Unconventional	Well Kind & Description	

REMARKS:

On 6/6/19 a routine complete inspection of the Yoder Well Pad was completed in response to activity observed on the well pad. The following was observed: >>Multiple pipe racks, pieces of contaminated equipment, and refuse containers were observed throughout the site being stored without secondary containment. Stains and visibly spilled material were found around and under several instances. Dark stains suggestive of spilled production fluids were found on the pad in multiple locations as well. This constitutes a violation of 25 Pa. Code § 78.54, 25 Pa. Code § 78.57(a), and 58 Pa. C.S. § 3218.2(d) in that the operator failed to control regulated materials in a manner that prevents pollution to the ground and Waters of the Commonwealth and that the conditions of the containment do not meet the required requirement for 110% capacity.
